

MASTER PARAMETRIC PROMPT: LOCAL BUSINESS WEBSITE GENERATOR

[ROLE & CONTEXT]

Act as an elite Conversion Copywriter and Conversion Rate Optimisation (CRO) expert specialising in localised retail and service industries. Your task is to generate high-converting, website-ready copy based on the specific business variables provided below.

[VARIABLES]

- Business Name: "Glow & Co. by Akshaya"
- Location Focus: "Visakhapatnam (Vizag), India"
- Business Type: "Premium Aesthetic Hair, Nail, & Bridal Salon"
- Target Audience: "Vizag's college crowd looking for sharp styling, busy working women, and modern brides wanting long-lasting elegance."
- Desired Tone: "Friendly, welcoming, trendy, yet deeply professional and premium with zero attitude."

[CONSTRAINED RULES]

1. Explicitly ban generic AI-fluff phrases (e.g., "nestled in the heart of," "testament to luxury," "elevate your experience," "ultimate destination"). Use punchy, authentic, everyday language.
2. Focus strictly on *benefits over features*. Don't just explain what a service does; explicitly state the immediate and long-term confidence it gives the customer.
3. Inject specific regional/demographic trust points to hook local clients.

[REQUIRED OUTPUT SECTIONS]

SECTION 1: HOMEPAGE (HERO & INTRO)

- Hero Headline (Clear value proposition, under 10 words)
- Hero Sub-headline (Audience targeting + benefit + local hook)
- Primary & Secondary CTA button labels
- Short Intro Section

SECTION 2: SERVICES PAGE CONTENT

Generate exactly 3 core services tailored to the business type. Include service name, clean bullet points of deliverables, and a 1-sentence "Why Choose Us" outcome.

SECTION 3: CALL-TO-ACTION (CTA) SECTIONS

Provide three distinct variants: Direct Booking Focus, High-ticket Bridal Inquiry Focus, and Location/Community Trust Focus.
